# Table of Contents

## HOST PLANT RESISTANCE AND VARIETY DEVELOPMENT

### Quantitative Trait Loci Associated with Reduced Deoxynivalenol in the Soft Red Winter Wheat ‘Ernie’
Z. A. Abate, and A. L. McKendry ........................................................................... Poster #1 ........... 3

### CIMMYT’S Challenges for Global Communication and Germplasm Enhancement for FHB Resistance in Durum and Bread Wheat

### Global Collaboration of Genetic Studies and Breeding for Fusarium Head Blight Resistance in Wheat
T. Ban, J. Lewis, N. Zeigler and R. Trehowan .......................................................... Poster #2 ......... 11

### Identifying Marker-Trait Associations for Fusarium Head Blight Using Breeding Germplasm
K.A. Beaubien and K.P. Smith .................................................................................. 12

### Determining and Reporting the Reaction of Kansas Commercial Wheat Cultivars to Fusarium Head Blight
W.W. Bockus, M.A. Davis, K.L. Roozeboom and J.P. Stack .................................... Poster #3 ........ 16

### Gene Profiling Studies in Tricothecene-Influenced Barley - *F. graminearum* Interaction
J. Boddou, S. Cho, H.C. Kistler and G.J. Muehlbauer .............................................. Poster #4 ........ 17

### A Cost-Effective High Throughput Genotyping Method
Lee Brady, James Anderson, Kevin Smith and Shiaoman Chao .............................. Poster #5 ........ 18

### Phenotypic and Genotypic Analysis of Scab Resistance in Soft Red Winter Wheat Germplasm
Gina Brown-Guedira, Leandro Perugini, Clay Sneller, Fred Kolb, David VanSanford, Carl Griffey and Herb Ohm ................................................................. Poster #6 ........ 19

### Comparison of Two Scab Inoculation Methods in Wheat
E.A. Brucker, F.L. Kolb, A.D. Wilson and N.J. Smith .............................................. Poster #7 ........ 20

### The Alien Gene Could be One of the ‘Fighters’ against Fusarium Head Blight in Wheat
X. Cai, S.S. Xu, R.E. Oliver and R.W. Stack ............................................................. 21

### Searching for Novel Sources of Resistance to FHB in Barley
Flavio Capettini, Stefania Grando, Tomohiro Ban and JanValkoun ......................... Poster #8 ........ 22

### Haplotype Selection of Two Major Quantitative Trait Loci for Improved Fusarium Head Blight Resistance in Elite Wheat Backgrounds

### Scab Screening of Soft Red Winter Wheat Genotypes in Maryland
Jose M. Costa, Neely Gal-Edd, Joshua Miller, Eun-Young Hwang and Aaron Cooper ................................................................. Poster #10 .......... 24
# Table of Contents

Breeding Efforts to Develop Fusarium Head Blight Resistant Durum Wheat in North Dakota  

Digital Image Analysis of Primary Leaf Lesions on Wheat Seedlings of Frontana and Alsen Inoculated with *Fusarium graminearum*  
C.K. Evans and J. Pope ................................................................. Poster #11 ........... 27

A Reciprocal Backcross Monosomic Analysis of the FHB Resistant Wheat Cultivar ‘Frontana’  
E. Gamotin, W.A. Berzonsky, B.L. Gebhard, G.D. Leach and S. Ali ............................ Poster #12 ........... 28

Evaluation of Wheat Lines Near-Isogenic for Diverse Fusarium Head Blight Resistance QTLs  
David F. Garvin and Ruth Dill-Macky ........................................................................ Poster #13 ........... 29

High Resolution Profiling of Wheat Genes Differentially Expressed in Response to *Fusarium graminearum* Infection  
Saber Golkari, Jeannie Gilbert, Suvira Prashar and J. Douglas Procunier ...................... Poster #14 ........... 30

Identification and Incorporation of FHB Resistance in Winter Wheat: An Overview of Progress and Strategies  
Carl A. Griffey ....................................................................................... Invited Talk ............ 31

Stress-directed Selection Identifies Lines of Spring Wheat with Enhanced Resistance to Fusarium Head Blight and Other Diseases  
S. Haber, J. Gilbert and A Comeau ........................................................................ Poster #15 ........... 35

Microarray Analysis of Fusarium Head Blight Toxin Deoxynivalenol (DON) Regulated Genes of *Arabidopsis thaliana*  
L.P. Hart, M. Catal and Z. Wang .................................................................................. 36

Progress in Development of Resistance to FHB in Romanian Wheat  
M. Ittu, N.N. Saulescu and G. Ittu ........................................................................ Poster #16 ........... 41

QTL Mapping of Fusarium Head Blight Resistance in Novel Wheat Germplasm CJ 9306  
Guo-Liang Jiang, JianRong Shi and Richard Ward .................................................... Poster #17 ........... 43

Resistance to Fungal Spread and DON Accumulation of *Fusarium graminearum* in Wheat  
Guo-Liang Jiang, Yanhong Dong, Lee Siler and Richard W. Ward .............................. Poster #18 ........... 44

Marker Assisted Selection for Fusarium Head Blight Resistance in Soft Red Wheat from Double Haploid Populations  
J.W. Johnson, Z. Chen, W. Kim and Y. Seo ............................................................... Poster #19 ........... 49

Progress from Five Years of Selecting for Resistance to Fusarium Head Blight in Spring Wheat  
M. Kadariya, L. Peterson, M. Mergoum, R. Stack and K. Glover ................................ Poster #20 ........... 50

A Comparison of Type I and Type II Resistance within a Collection of Elite Spring Wheat Genotypes  
C.M. Kirby, L.J. Peterson, L.E. Osborne, J. M. Stein and K.D. Glover ........................ Poster #21 ........... 51

Improvement of FHB Resistance of Durum Wheat  
M. Kishii, T. Ban and K. Ammar ................................................................................. Poster #22 ........... 52

Evaluation of Fusarium Head Blight Resistance in Soft Red Winter Wheat  
C. Knott and D. Van Sanford ....................................................................................... Poster #23 ........... 53
# Table of Contents

**Profiling the Expression of Genes Related to FHB Pathogenesis in Wheat with Affymetrix GeneChip Wheat Genome Array**  
Guangle Li and Yang Yen ............................................................. Poster #24 .... 54

**New DNA Markers for the Chromosome 3BS Fusarium Head Blight Resistance QTL in Wheat**  
Sixin Liu, Xiuling Zhang, Michael O. Pumphrey, Robert W. Stack, Bikram S. Gill and James A. Anderson ................................................................. Poster #25 .... 55

**Main Effects, Epistasis and Environmental Interactions of QTLs on Fusarium Head Blight Resistance in a Recombinant Inbred Population CS-SM3-7ADS / Annong 8455**  
H-X. Ma, G-H. Bai, X. Zhang and W-Z. Lu ........................................ Poster #26 .... 56

**Fractional analysis of Chromosome 2(2H) Fusarium Head Blight Resistance QTL**  
Christina Maier, Deric Schmierer, Thomas Drader, Richard Horsley, Sophia Sushailo, Ling Zhang and Andris Kleinhofs ......................................................... Poster #27 .... 57

**Diallel Analysis of Fusarium Head Blight Resistance in Wheat**  
S. Malla and A.M.H. Ibrahim ............................................................. Poster #28 .... 58

**Evaluation of Elite Hard Red and White Winter Wheat for Fusarium Head Blight Resistance**  
S. Malla and A.M.H. Ibrahim ............................................................. Poster #29 .... 59

**Molecular Characterization of Wheat-Alien Species Amphiploids and Chromosome Addition Lines Resistant to Fusarium Head Blight**  
Rachel I. McArthur, Rebekah Oliver, Steven Xu, Robert Stack, Richard R.-C.Wang and Xiwen Cai ................................................................. Poster #30 .... 60

**The Effect of General Field Selection on Wheat Microsatellite Allele Frequencies at FHB Resistance QTLs**  
C.A. McCartney, R.M. DePauw, D.J. Somers, J. Thomas, S.L. Fox, D.G. Humphreys, J. Gilbert, B.D. McCallum, G. Fedak and R.E. Knox ........................................ Poster #31 .... 61

**The Evaluation of FHB Resistance QTLs Introgressed into Elite Canadian Common Wheat Germplasm**  

**Sources of Fusarium Head Blight Resistance in Wheat: Diversity and Utilization**  
Anne L. McKendry ......................................................................... Invited Talk .... 63

**Enhancing Fusarium Head Blight Resistance in Spring Wheat: A Glance into Success and Challenges**  
Mohamed Mergoum, Richard C. Frohberg and Robert W. Stack .............. Invited Talk .... 64

**“Glenn” Hard Red Spring Wheat Cultivar: A New Step in Combating Fusarium Head Blight Disease**  
Mohamed Mergoum, Richard C. Frohberg and Robert W. Stack .................. 69

**FHB Resistance of the USSRW Screening Nursery with the Micro Plot Method**  
Á. Mesterházy, G. Kaszonyi and B. Tóth .............................................. Poster #33 .... 72

**The 2004-05 Uniform Southern Fusarium Head Blight Screening Nursery**  
J.P. Murphy, R.A. Navarro and J.H. Lyerly ............................................. Poster #34 .... 73

**Fine Mapping of a QTL Region Associated with Fusarium Head Blight, Kernel Discoloration, Grain Protein Concentration, and Heading Date on Barley Chromosome 6H**  
L.M. Nduulu, G.J. Muehlbauer and K.P. Smith ........................................ Poster #35 .... 75

# Table of Contents

**Relationship between FHB Index and DON: A Quantitative Synthesis of Eight Years of Research**  
Pierce A. Paul, Laurence V. Madden and Patrick E. Lipps .................................... Invited Talk ...... 138

**Colonization of Wheat Cultivars by *Fusarium graminearum* at Harvest and in Overwintered Residues**  
B. Salas and R. Dill-Macky ................................................................. Poster #59 ...... 140

**Effect of Residue Management and Host Resistance on the Epidemiology of Fusarium Head Blight**  
B. Salas and R. Dill-Macky ................................................................................ Poster #60 ...... 144

**Validation of the DONcast Prediction Tool in Wheat across France and Uruguay**  
A.W. Schaafsma and D.C. Hooker ...................................................................... Poster #61 ...... 148

**Genetic Structure of Atmospheric Populations of *Gibberella zeae***  
D.G. Schmale III, J.F. Leslie, R.L. Bowden, K. A. Zeller, A.A. Saleh, E.J. Shields  
and G.C. Bergstrom ....................................................................................... Poster #62 ...... 149

**Temporal Scales of Genetic Diversity within New York Atmospheric Populations of *Gibberella zeae***  

**Environmental Factors Influencing Scab of Barley in the Northern Great Plains**  
J.M. Stein, C.M. Kirby and L.E. Osborne ........................................................ Poster #64 ...... 151

**The Fusarium Head Blight Epidemics of the Winter and Spring Wheat Crops in South Dakota for 2005**  
J.M. Stein and M.A. Draper .............................................................................. Poster #65 ...... 152

**Accumulation Manner of Deoxynivalenol and Nivalenol in Wheat Infected with *Fusarium graminearum***  
M. Yoshida, T. Nakajima, M. Arai and K. Tomimura ........................................ Poster #66 ...... 153

**PATHOGEN GENETICS AND GENOMICS**

**Functional Analysis of Polyketide Synthase Genes in *Gibberella zeae***  
Ififa Gaffoor, Daren Brown, Bob Proctor, WeiHong Qi and Frances Trail ............ Poster #67 ...... 157

**Displacement of the Native Population of *Fusarium graminearum* in North Dakota and Parts of Minnesota by a Genetically Divergent and More Toxigenic Population**  
L.R. Gale, L.E. O’Leary, J.D. Bryant, G.E. Ochocki, T.J. Ward and H.C. Kistler Poster #68 ...... 158

**Fusarium Head Blight of Wheat in Louisiana is Caused Largely by Nivalenol Producers of *Fusarium graminearum* and *Fusarium asiaticum***  

**Relative Pathogenicity of 3-ADON and 15-ADON Isolates of *Fusarium graminearum* from the Prairie Provinces of Canada**  
J. Gilbert, R.M Clear, T.J. Ward and D. Gaba .................................................. Poster #70 ...... 160

**Genes Important in Ascospore Development in *Gibberella zeae***  
John Guenther, Heather Hallen and Frances Trail ............................................ Poster #71 ...... 161

**Triacylglyceride Accumulation in Anticipation of Sexual Development in *Gibberella zeae***  
John Guenther, Yair Shachar-Hill and Frances Trail ........................................ Poster #72 ...... 162

**Deletion of the Trichotheccene Gene Cluster of *Fusarium graminearum***  
K.L.B. Hilburn and H.C. Kistler ................................................................. Poster #73 ...... 163
Strategies to Control Scab using RNAi Technology: Progress and Obstacles
Nancy Keller, Elyse Bolterstein, Tami McDonald, Tom Hammond, Daren Brown, Jason Cook and Heidi Kaeppler ................................................................. Invited Talk ...... 164

Expression Analysis of Defense-Related Genes in Wheat in Response to Infection by
Fusarium graminearum
L. Kong, J.M. Anderson and H.W. Ohm ............................................................ Poster #74 ...... 165

Field Populations of Gibberella zeae
John F. Leslie and Robert L. Bowden ............................................................... Invited Talk ...... 166

Development of a Novel Bioassay System for FHB Molecular Interactions
J. Murakami and T. Ban .......................................................................................Poster #75 ...... 167

Gene Expression Analysis of Conidium Maturation and Germination on Fusarium graminearum
Kye-Yong Seong, Jin-Rong Xu and H. Corby Kistler .........................................Poster #76 ...... 168

A Multilocus Genotyping Assay for Identification of Fusarium Head Blight Species and
Trichothecene Toxin Chemotypes
T.J. Ward, D. Starkey, B. Page and K. O’Donnell ..............................................Poster #77 ...... 169

FHB Species and Trichothecene Toxin Diversity in North America
and W.H. Elmer .................................................................................................Poster #78 ...... 170

Functional Genomic Studies of Pathogenicity in Fusarium graminearum
Jin-Rong Xu, Frances Trail and H. Corby Kistler .............................................. Invited Talk ...... 171

FOOD SAFETY, TOXICOLOGY AND UTILIZATION OF MYCOTOXIN-CONTAMINATED GRAIN

Multiplex Real-Time PCR Method to Simultaneously Detect and Quantify
Deoxynivalenol and Ochratoxin A Producing Fungi
Anuradha Boddeda and Charlene E. Wolf-Hall ...............................................Poster #79 ...... 175

Toward Bichromatic Optical Sorting of Scab-Damaged Wheat
S.R. Delwiche, T.C. Pearson and D.L. Brabec ....................................................Poster #80 ...... 176

Correlation of Seed Size and DON Accumulation in Spring Wheat
M. Kadariya, L. Osborne, M. Mergoum, L. Peterson and K. Glover .....................Poster #81 ...... 177

The Trichothecene Triangle: Toxins, Genes and Populations
Susan P. McCormick .................................................................................. Invited Talk ...... 178

Perspectives on the Risk Analysis of the Trichothecene Mycotoxins
S.W. Page .................................................................................................. Invited Talk ...... 180

Fusarium Infection, DON Content and Microbial Loads in Durum Wheat from the
Northern Plains: 2001-2004
Chitra Vijayakumar, Charlene Wolf-Hall and Frank Manthey ..........................Poster #82 ...... 181

Deoxynivalenol and 15-Acetyldeoxynivalenol Production by Fusarium graminearum
Strains Grown in Semi-Defined Medium with Different Carbohydrate Sources
H. Zhang, C. Wolf-Hall and C. Hall ...............................................................Poster #83 ...... 182
CHEMICAL, BIOLOGICAL AND CULTURAL CONTROL

Characteristics, Including Tolerance to Elevated Heat and Elevated Salt Concentration, of a Bacillus Strain Used as a Biocontrol Agent to Control Fusarium Head Blight
Amanda L. Dangel and Bruce H. Bleakley ....................................................... Poster #84 .......... 187

2005 Uniform Fungicide Performance Trials for the Suppression of Fusarium Head Blight in South Dakota
and G. Lammers ................................................................................................ Poster #85 ....... 188

2005 Uniform Trials for the Performance of Biological Control Agents in the Suppression of Fusarium Head Blight in South Dakota
M.A. Draper, B. Bleakley, K.R. Ruden, S.M. Thompson and D.S. Wittmeier ... Poster #86 .......... 189

Fluid Bed Drying of Cryptococcus nodoaensis OH 182.9; a Biocontrol Agent of Fusarium Head Blight
Christopher A. Dunlap and David A. Schisler ................................................. 190

Osmotic Shock Tolerance and Membrane Properties of Cryptococcus nodoaensis OH 182.9; A Biocontrol Agent of Fusarium Head Blight
Christopher A. Dunlap, Kervin O. Evans and David A. Schisler ...................... Poster #87 .......... 193

Effect of Nozzles on Fungicide Efficacy for Control of Fusarium Head Blight on Barley
Halley, S., Van Ee, G. and Hofman, V. ............................................................... 194

The Effect of Previous Crop Residue, Chaff Management, and Tillage System on Fusarium Head Blight of Barley
Halley, S. and Neate, S. ..................................................................................... Poster #88 .......... 198

Aerial Application of Fungicide on Barley
V. Hofman and S. Halley .................................................................................... Poster #89 .......... 199

2005 FHB Uniform Fungicide Trial on Hard Red Spring Wheat in Minnesota
C.R. Hollingsworth, C.D. Motteberg and W.G. Thompson ................................ Poster #90 .......... 200

2005 FHB Uniform Fungicide Trial on Hard Red Winter Wheat in Minnesota
C.R. Hollingsworth, C.D. Motteberg and W.G. Thompson .............................. Poster #91 .......... 203

2005 FHB Uniform Fungicide Trial on Spring Barley in Minnesota
C.R. Hollingsworth, C.D. Motteberg and W.G. Thompson .............................. Poster #92 .......... 204

Cooperative Study for Improved Management of Fusarium Head Blight Using Aerial Application of Fungicide
C. Hollingsworth, M. McMullen, S. Halley, V. Hofman, C. Motteberg
and S. Meyer ................................................................................................... Poster #93 .......... 205

Effective Application of Fungicides on Wheat Heads: What’s the Best?
D.C. Hooker, H. Spieser and A.W. Schaafsma ............................................. Invited Talk .......... 209

Effects of Induced Systemic Resistance-Activating Agents on Fusarium Head Blight
C.C. Jochum, G.Y. Yuen and B. Tisserat ......................................................... Poster #94 .......... 211

Effect of Adjuvants on Efficacy of Folicur Fungicide for FHB Control
M. McMullen, J. Jordahl and S. Meyer ............................................................... Poster #95 .......... 215

Real World Results in FHB Management
M. McMullen ................................................................................................... Invited Talk .......... 216

Results of the Uniform Fungicide Trial on Barley, North Dakota, 2005
M. McMullen and J. Lukach ................................................................. Poster #96 .......... 217
