

2021 National Fusarium Head Blight Forum

Virtual Meeting | December 6-7, 2021

Early Career Meet-up

We are pleased to announce this virtual opportunity for graduate students and post-doctoral researchers to gather and meet their fellow peers in the FHB community while engaging with an early career professional in their field.

Meet Our Early Career Professional Lineup:

FHB Management: Kaitlyn Bissonnette, University of Missouri

Food Safety and Toxicology: Jiajia Rao, North Dakota State University

Gene Discovery and Engineering Resistance: Thomas Baldwin, North Dakota State University

Pathogen Biology and Genetics: Santiago Mideros, University of Illinois

Variety Development and Host Plant Resistance: Brian Ward, The Ohio State University

This event is included in the NFHB Forum registration fee for graduate students and post-docs. Please make sure to indicate your plans to participate when registering.

Virtual Zoom Event
