Principle Investigator (PI): Jason Wight
Institution: University of Maryland
E-mail: jpwight@umd.edu
Phone: 301-405-4558
Fiscal Year: 2016
USDA-ARS Agreement ID: 59-0206-6-013
USDA-ARS Agreement Title: Evaluation of Commercial Wheat and Barley Cultivars for FHB Reaction in DE/MD.
FY16 USDA-ARS Award Amount: $3,862
Recipient Organization: University of Maryland
Office of the Comptroller
Contract and Grant Accounting
RM 4101, Chesapeake Bldg
College Pard, MD 20742-3141
DUNS Number: 790934285
EIN: 52-6002033
Recipient Identifying Number or Account Number: KFS 5258020
Project/Grant Reporting Period: 6/6/16 - 6/5/17
Reporting Period End Date: 06/05/17

FY16 Total ARS Award Amount $3,862

Principal Investigator: Jason Wight
Date: 8/2/2017

* MGMT – FHB Management
FST – Food Safety & Toxicology
GDER – Gene Discovery & Engineering Resistance
PBG – Pathogen Biology & Genetics
EC-HQ – Executive Committee-Headquarters
BAR-CP – Barley Coordinated Project
DUR-CP – Durum Coordinated Project
HWW-CP – Hard Winter Wheat Coordinated Project
VDHR – Variety Development & Uniform Nurseries – Sub categories are below:
SPR – Spring Wheat Region
NWW – Northern Soft Winter Wheat Region
SWW – Southern Soft Red Winter Wheat Region
Project 1: *Evaluation of Commercial Wheat and Barley Cultivars for FHB Reaction in DE/MD.*

1. What are the major goals and objectives of the project?
   1) Include the Delaware/Maryland project site as part of the Coordinated Management Program to assess the stability of results across different environments and wheat classes.

2. What was accomplished under these goals? *Address items 1-4) below for each goal or objective.*

   1) major activities: Studies were conducted in 2016 and 2017 that assessed the impacts of varietal resistance level on FHB and DON suppression. The field site was at the Beltsville Research and Education Center in Maryland and Carvel Research and Education Center in Georgetown, Delaware. Both studies followed the proposed protocol, and data on yield, test weight, FDK, FHB, and DON were obtained. Data were shared with PI Paul to be included as part of larger, multi-state projects. 2017 data are still being generated.

   2) specific objectives: Include the Delaware project site as part of the Coordinated Management Program to assess the stability of results across different environments and wheat classes.

   3) significant results: Relative DON rankings of wheat varieties were consistent in year-over-year comparison from data produced in 2016. Standards (Oakes (MR) and Shirley (MS) exhibited an appropriate level of DON and disease index for their resistance level.

   4) key outcomes or other achievements: Results were the first to be published in the Mid-Atlantic region. Timely reporting allowed producers and breeders of the region to make key planting and line selection decisions, respectively. Five total Maryland wheat lines were released, with one being publicly available through the Maryland Crop Improvement Association and local seed sources. The remaining lines were licensed to a commercial seed producer who sells patented, “pvp” protected seed to a national market.

   We were able to reestablish the misted nursery in Maryland, which was inactive in recent years. A recent survey of Delaware growers indicated that the data produced by this nursery will save Delaware producers a minimum of $1 million annually.

3. What opportunities for training and professional development has the project provided?

   This project provided training opportunities for one technician and two University of Maryland student workers. They learned principles of agronomy and pathology as applied to field research. In particular they learned field layout, planting, irrigation, data collection, harvest, and sample management.
4. How have the results been disseminated to communities of interest?

Results were shared on SCABSMART, the Field Crop Disease Management Blog, the Maryland Agronomy page, and at multiple regional and county-level meetings throughout Maryland and Delaware.
Training of Next Generation Scientists

Instructions: Please answer the following questions as it pertains to the FY16 award period. The term “support” below includes any level of benefit to the student, ranging from full stipend plus tuition to the situation where the student’s stipend was paid from other funds, but who learned how to rate scab in a misted nursery paid for by the USWBSI, and anything in between.

1. Did any graduate students in your research program supported by funding from your USWBSI grant earn their MS degree during the FY16 award period?
   
   If yes, how many? Nothing to report

2. Did any graduate students in your research program supported by funding from your USWBSI grant earn their Ph.D. degree during the FY16 award period?
   
   If yes, how many? Nothing to report

3. Have any post docs who worked for you during the FY16 award period and were supported by funding from your USWBSI grant taken faculty positions with universities?
   
   If yes, how many? Nothing to report

4. Have any post docs who worked for you during the FY16 award period and were supported by funding from your USWBSI grant gone on to take positions with private ag-related companies or federal agencies?
   
   If yes, how many? Nothing to report
Release of Germplasm/Cultivars

**Instructions:** In the table below, list all germplasm and/or cultivars released with full or partial support through the USWBSI during the FY16 award period. All columns must be completed for each listed germplasm/cultivar. Use the key below the table for Grain Class abbreviations. Leave blank if you have nothing to report or if your grant did NOT include any VDHR-related projects.

<table>

Add rows if needed.

**NOTE:** List the associated release notice or publication under the appropriate sub-section in the ‘Publications’ section of the FPR.

**Abbreviations for Grain Classes**
- Barley - BAR
- Durum - DUR
- Hard Red Winter - HRW
- Hard White Winter - HWW
- Hard Red Spring - HRS
- Soft Red Winter - SRW
- Soft White Winter - SWW

(Form – FPR16)
Publications, Conference Papers, and Presentations

**Instructions:** Refer to the FY16-FPR_Instructions for detailed instructions for listing publications/presentations about your work that resulted from all of the projects included in the FY16 grant. Only include citations for publications submitted or presentations given during your award period (6/1/16 - 5/31/17). If you did not have any publications or presentations, state ‘Nothing to Report’ directly above the Journal publications section.

**Journal publications.** Nothing to report

**Books or other non-periodical, one-time publications.** Nothing to report

**Other publications, conference papers and presentations.**
