

## FY21 Performance Progress Report

Due date: July 26, 2022

### Cover Page

<b>Principle Investigator (PI):</b>	David Schmale
<b>Institution:</b>	Virginia Tech
<b>E-mail:</b>	dschmale@vt.edu
<b>Phone:</b>	540-231-6943
<b>Fiscal Year:</b>	2021
<b>USDA-ARS Agreement ID:</b>	59-0206-0-190
<b>USDA-ARS Agreement Title:</b>	Diagnostic Testing Services for Deoxynivalenol in the Eastern U.S.
<b>FY20 USDA-ARS Award Amount:</b>	\$79,434
<b>Recipient Organization:</b>	Virginia Tech. School of Plant and Environmental Sciences 403 Lathman Hall, Ag Quad Lane Blacksburg, VA 24061
<b>DUNS Number:</b>	003137015
<b>EIN:</b>	54-6001805
<b>Recipient Identifying Number or Account Number, if any:</b>	423536
<b>Project/Grant Period:</b>	6/7/21 - 6/6/23
<b>Reporting Period End Date:</b>	6/6/2022

### USWBSI Individual Project(s)

USWBSI Research Category*	Project Title	ARS Award Amount
FST-S	Diagnostic Testing Services for Deoxynivalenol in the Eastern U.S.	\$79,434
<b>FY21 Total ARS Award Amount</b>		<b>\$79,434</b>

I am submitting this report as an:  Annual Report  Final Report

*I certify to the best of my knowledge and belief that this report is correct and complete for performance of activities for the purposes set forth in the award documents.*

July 26, 2022

Principal Investigator Signature

Date Report Submitted

† BAR-CP – Barley Coordinated Project  
 DUR-CP – Durum Coordinated Project  
 EC-HQ – Executive Committee-Headquarters  
 FST-R – Food Safety & Toxicology (Research)  
 FST-S – Food Safety & Toxicology (Service)  
 GDER – Gene Discovery & Engineering Resistance  
 HWW-CP – Hard Winter Wheat Coordinated Project

MGMT – FHB Management  
 MGMT-IM – FHB Management – Integrated Management Coordinated Project  
 PBG – Pathogen Biology & Genetics  
 TSCI – Transformational Science  
 VDHR – Variety Development & Uniform Nurseries  
 NWW – Northern Soft Winter Wheat Region  
 SPR – Spring Wheat Region  
 SWW – Southern Soft Red Winter Wheat Region

**Project 1:** Diagnostic Testing Services for Deoxynivalenol in the Eastern U.S.

---

**1. What are the major goals and objectives of the research project?**

The overall goals of our project were to (1) provide diagnostic testing services for DON for wheat and barley samples associated with USWBSI-supported research projects in the eastern U.S. and (2) reduce DON contamination in wheat and barley.

**2. What was accomplished under these goals or objectives? (For each major goal/objective, address these three items below.)**

**a) What were the major activities?**

In FY21, DON data was delivered for 4,377 wheat and barley samples from the following USWBSI investigators: Bowen (196 samples), Boyles (586 samples), Darby (143 samples), Glover (1,326 samples), Koehler (20 samples), Li (69 samples), Santantonio (1,863 samples), and Wegulo (150 samples). The testing number does NOT include controls, checks, and re-runs. Most of the samples tested in FY21 were 100g kernel lots from FHB field trials, but some were smaller lots (~5g samples) from laboratory experiments. Extraction, clean-up, and quantification of DON were conducted following standard protocols using a GC/MS. Research associate Niki McMaster and PI David Schmale attended the 2021 virtual USWBSI meeting.

**b) What were the significant results?**

The proposed project provided essential DON testing services for the USWBSI, and supported the only USWBSI-associated DON testing lab in the eastern U.S. Many of the wheat and barley lines had not been tested previously for mycotoxins.

**c) List key outcomes or other achievements.**

The research has contributed to the development and release of new FHB-resistant wheat and barley varieties and has ensured rigorous testing of both new and historical wheat and barley varieties for mycotoxin contamination. The Schmale Lab at Virginia Tech continues to be committed to the long-term management of a successful and productive mycotoxin testing lab for the USWBSI. DON testing services were coordinated, supported, and managed by research associate Niki McMaster.

**3. What opportunities for training and professional development has the project provided?**

Research associate Niki McMaster continued to improve her analytical skills in mycotoxin detection and quantification.

**4. How have the results been disseminated to communities of interest?**

Schmale gave a series of lectures on mycotoxins for about 100 undergraduate students and 9 graduate students at Virginia Tech. McMaster communicated with USWBSI stakeholders via phone and email to coordinate sample collection, processing, and testing. Results were disseminated to stakeholders at the 2021 virtual USWBSI meeting.

## Publications, Conference Papers, and Presentations

Please include a listing of all your publications/presentations about your FHB work that were a result of funding from your FY21 grant award. Only citations for publications published (submitted or accepted) or presentations presented during the **award period** should be included.

### Did you publish/submit or present anything during this award period?

- Yes, I've included the citation reference in listing(s) below.  
 No, I have nothing to report.

### Journal publications as a result of FY21 grant award

List peer-reviewed articles or papers appearing in scientific, technical, or professional journals. Include any peer-reviewed publication in the periodically published proceedings of a scientific society, a conference, or the like.

Identify for each publication: Author(s); title; journal; volume; year; page numbers; status of publication (published [include DOI#]; accepted, awaiting publication; submitted, under review; other); acknowledgement of federal support (yes/no).

Machado, F., Kunem, P.R., Casa, R.T., McMaster, N., Schmale, D.G., Vaillancourt, L., Del Ponte, E. 2021. The dominance of *Fusarium meridionale* over *F. graminearum* causing *Gibberella* ear rot in Brazil may be due to increased aggressiveness and competitiveness. *Phytopathology*, 111 (1). <https://doi.org/10.1094/PHYTO-11-20-0515-R>

Status: Published

Acknowledgement of Federal Support: Yes

### Books or other non-periodical, one-time publications as a result of FY21 grant award

Report any book, monograph, dissertation, abstract, or the like published as or in a separate publication, rather than a periodical or series. Include any significant publication in the proceedings of a one-time conference or in the report of a one-time study, commission, or the like.

Identify for each one-time publication: Author(s); title; editor; title of collection, if applicable; bibliographic information; year; type of publication (book, thesis or dissertation, other); status of publication (published; accepted, awaiting publication; submitted, under review; other); acknowledgement of federal support (yes/no).

### Other publications, conference papers and presentations as a result of FY21 grant award

Identify any other publications, conference papers and/or presentations not reported above. Specify the status of the publication.
